

Job: Video Engineer
Location: Carbondale, Colorado
Position Type: Full Time

Our Video Engineers enjoy the opportunities to work with innovative and cutting-edge technology on a daily basis. From setting equipment as elaborate as LED wall displays to ensuring our broadcast systems are properly set and engineered throughout event venues; our engineers are the foundation of the events we build and bring to life. They ensure that each event is flawlessly executed, and work with the rest of the team to set up and strike each event in a timely manner. At SIX Productions, customer satisfaction is our highest priority, our engineers play an integral part in establishing a positive relationship with each of our clients.

Our Video Engineers are responsible for intermediate level setup and operation of medium to large projects across all disciplines (exhibits, special events, corporate meetings, weddings, live shows, experiential marketing and trade shows), as well as providing professional guidance to less-experienced members of the team.

The successful candidate is confident, assertive and capable of multi-tasking and meeting demanding deadlines. Candidate must be a proactive, independent worker who can thrive in a fast-paced environment. Candidate must be able to work independently or as part of a team and must have the ability to give direction, delegate, and have a high sense of detail and organization.

Key Job Responsibilities:
